MICHAEL LONDON – VILLANOVA '74

WIN in your LIFE™

Michael London – Villanova '74

“This is a book about winning in every aspect of your life!”

Author Michael London was inspired by the Villanova Wildcats extraordinary victory in the 2016 NCAA Men's Basketball National Championship. As an avid fan, London noticed that most news commentaries focused on the game-changing, final 4.7 seconds. Looking past these sensational headlines, he knew that the rest of the story was even more astounding.

Win in Your Life illustrates how a specific set of core values are exemplified in the lives of successful athletes and leaders throughout history. Each value is brought to life by inspiring stories of those who have lived them out—from St. Augustine to Martin Luther King Jr. to Abraham Lincoln to Villanova players and coaches.

In this book, you will discover nuggets of truth that have the power to transform your life. *Win in Your Life* illuminates universal winning principles used by champions. Learn the “Sweet Sixteen” principles to move past large and small setbacks, transform your attitude, and propel you to success.

Successful entrepreneur, publisher, community servant, and past trainer of the Saturn Culture & Management program, Michael London has authored a book that is part love song to the “Villanova Way” and part homage to the “wisdom of the ages.”

Discover how you can use the “Sweet Sixteen Principles of Champions” to Win in Your Life.

- « *Featuring the “Sweet Sixteen” principles to win in everything you do.*
- « *Will make a positive transformation in your life just by using the first principle.*
